

Multiple Choice (10 marks)

1. Analysis of the teeth of a hominid species discovered in Malapa Cave in South Africa, dating just after 2 million years ago, indicates a diet that consisted primarily of:
 - (a) meat, fish, and some plants.
 - (b) primarily C3 plants that included barley and oats.
 - (c) large quantities of insects and small mammals.
 - (d) a balanced diet of fruits, vegetables, meat, and fish.
 - (e) primarily C4 plants that included corn and potatoes.
2. Which of the following is NOT an innovation of the Mesolithic?
 - (a) crop irrigation systems
 - (b) the creation of fishing nets
 - (c) European use of bow and arrow
 - (d) domestication of animals
 - (e) canoes
3. How did Aurignacian technology differ from Mousterian technology?
 - (a) Mousterian technology was focused on the production of scrapers.
 - (b) Aurignacian technology was primarily used for creating stone tools.
 - (c) Aurignacian technology was less advanced than Mousterian technology.
 - (d) Mousterian technology produced more usable blade surface.
 - (e) Aurignacian technology produced more usable blade surface.
4. In primates, the location of which of the following determines if it is a quadruped or biped?
 - (a) the foramen magnum
 - (b) the skull
 - (c) the feet
 - (d) the femur
 - (e) the spine
5. Research on C3 and C4 pathways indicates that changes in plant communities were associated with a transition in the diets of ancient hominids from:
 - (a) meat to fruits and vegetables.

- (b) species focused on grasses to fruits and vegetables.
- (c) nuts and fruits to fish.
- (d) nuts and fruits to species more focused on grasses.
- (e) species focused on grasses to meat.

True / False (10 marks)

Answer True or False

- 6. True or False: Homo sapiens and Australopithecus afarensis share a mode of locomotion, primarily bipedalism.
- 7. True or False: De Soto's expedition primarily encountered descendants of the Aztec civilization during his journey across North America.
- 8. True or False: Scapulimancy is the ancient Chinese practice of divining the future by examining the cracks in fired animal bones.
- 9. True or False: Pizarro's defeat of the Incas was primarily due to his overwhelming numerical superiority of over 80,000 soldiers.
- 10. True or False: The recovery of a shell at the Trinil site with intentionally engraved lines suggests that Homo erectus may have possessed an aesthetic sense.

Long Form Response (20 marks)

Answer each question with a clear and complete explanation.

- 11. Discuss the implications of animal teeth analysis from a nearby village on our understanding of the societal practices and mobility of the people who constructed Stonehenge.
- 12. Discuss the evidence of trade interactions between the Indus Valley civilization and ancient Mesopotamian city-states, focusing on the significance of seals found in both regions.
