

Multiple Choice

1. **Answer:** A

Options: A) High detrital biomass; B) High number of predatory species; C) High presence of fully matured plant species; D) High frequency of R-selected species; E) High rates of soil nutrient depletion

Note: Correct option: A - High detrital biomass

2. **Answer:** D

Options: A) Acquired characteristics are inherited through a blending of parental traits; B) Acquired characteristics are inherited but do not influence evolution; C) Acquired characteristics are inherited randomly, regardless of their use; D) Acquired characteristics cannot be inherited; E) Acquired characteristics are inherited based on use and disuse

Note: Correct option: D - Acquired characteristics cannot be inherited

3. **Answer:** B

Options: A) Lack of available organs; B) Graft rejection due to immunological reaction; C) Incompatibility of blood types; D) Allergic reactions to anesthesia; E) Insufficient surgical expertise

Note: Correct option: B - Graft rejection due to immunological reaction

4. **Answer:** A

Options: A) The body controls water excretion through sweat glands.; B) Water excretion is determined by the concentration of electrolytes in the body's cells.; C) The kidneys control water excretion by changing the size of the glomerulus.; D) Water excreted is controlled by the hormone insulin.; E) The body adjusts water excretion by altering the pH level of the blood.

Note: Correct option: A - The body controls water excretion through sweat glands.

5. **Answer:** A

Options: A) Telophase; B) G₂; C) Prophase; D) Interphase; E) Metaphase

Note: Correct option: A - Telophase

True / False

6. **Answer:** True

Options: A) True; B) False

Note: In manikin laypersons could insert LMAS in the correct direction after onsite instruction by a simple manual with a high success rate. This indicates some basic procedural understanding and intellectual transfer in principle. Operating errors (n = 91) were frequently not recognized and corrected (n = 77). Improvements in labeling

and the quality of instructional photographs may reduce individual error and may optimize understanding.

7. **Answer:** True

Options: A) True; B) False

Note: LA for adrenal masses larger than 7 cm is a safe and feasible technique, offering successful outcome in terms of intraoperative and postoperative morbidity, hospital stay and cosmesis for patients; it seems to replicate open surgical oncological principles demonstrating similar outcomes as survival rate and recurrence rate, when adrenal cortical carcinoma were treated. The main contraindication for this approach is the evidence, radiologically and intraoperatively, of local infiltration of periadrenal tissue.

8. **Answer:** False

Options: A) True; B) False

Note: Overall, there was a poor knowledge of the side effects of ACE-I. This may account for the increased referrals for chronic cough and angioedema.

9. **Answer:** True

Options: A) True; B) False

Note: The results confirm that c-kit is vastly expressed in uveal melanoma, suggest that the c-kit molecular pathway may be important in uveal melanoma growth, and point to its use as a target for therapy with STI 571.

10. **Answer:** True

Options: A) True; B) False

Note: Our findings reveal a significant decrease in ADMA levels of ex-ELBW subjects compared to C, underlining a probable correlation with preterm birth and low birth weight. Taken together, these results may underlie the onset of early circulatory dysfunction predictive of increased cardiovascular risk.

Long Form Response

11. **Answer:** The blood pressure decreases as the blood moves further away from the heart. Explain why this is the correct answer and provide supporting evidence. Reference key facts or concepts that support this choice.

Note: Long-form derived from MCQ; award credit for stating the correct idea and giving supporting reasoning.

12. **Answer:** Earth is a few thousand years old, and populations are unchanging.. Explain why this is the correct answer and provide supporting evidence. Reference key facts or concepts that support this choice.

Note: Long-form derived from MCQ; award credit for stating the correct idea and giving supporting reasoning.
