

Multiple Choice

1. **Answer:** A

Options: A) -.27, 1.45, 1.73; B) -.27, -1.45, -1.73; C) -2.18, 0.15, -1.82; D) 0, 1.5, -2; E) .27, 1.45, 1.73

Note: Correct option: A - -.27, 1.45, 1.73

2. **Answer:** B

Options: A) Savanna; B) Taiga; C) Tundra; D) Chaparral; E) Alpine

Note: Correct option: B - Taiga

3. **Answer:** A

Options: A) reproduction, migration, mutation, natural selection; B) mutation, genetic drift, migration, genetic hitchhiking; C) mutation, genetic drift, migration, random mating; D) mutation, gene flow, migration, natural selection; E) adaptation, genetic drift, migration, natural selection

Note: Correct option: A - reproduction, migration, mutation, natural selection

4. **Answer:** C

Options: A) Aristotle, Darwin, and Lamarck; B) Aristotle, Lyell, and Darwin; C) Aristotle, Linnaeus, and Cuvier; D) Aristotle, Cuvier, and Lamarck; E) Linnaeus, Darwin, and Lamarck

Note: Correct option: C - Aristotle, Linnaeus, and Cuvier

5. **Answer:** A

Options: A) photosynthesis to produce glucose; B) fermentation to produce alcohol; C) association with humans to produce ringworm; D) association with the roots of plants to form mycorrhizae

Note: Correct option: A - photosynthesis to produce glucose

True / False

6. **Answer:** False

Options: A) True; B) False

Note: LLM-generated false statement. Correct answer: 'disruption of Hardy-Weinberg equilibrium in the metapopulation'

7. **Answer:** True

Options: A) True; B) False

Note: LLM-generated true statement based on MCQ.

8. **Answer:** False

Options: A) True; B) False

Note: LLM-generated false statement. Correct answer: 'The extra Y chromosome decreases a male's aggression'.

9. **Answer:** False

Options: A) True; B) False

Note: LLM-generated false statement. Correct answer: 'Succession'.

10. **Answer:** False

Options: A) True; B) False

Note: LLM-generated false statement. Correct answer: 'conversion of pyruvic acid to acetyl CoA'.

Long Form Response

11. **Answer:** By assessing the fossil content found within the rock layers. Explain why this is the correct answer and provide supporting evidence. Reference key facts or concepts that support this choice.

Note: Long-form derived from MCQ; award credit for stating the correct idea and giving supporting reasoning.

12. **Answer:** Incomplete dominance describes the interaction of two alleles on one gene; epistasis describes the interaction of two genes and their respective alleles.. Explain why this is the correct answer and provide supporting evidence. Reference key facts or concepts that support this choice.

Note: Long-form derived from MCQ; award credit for stating the correct idea and giving supporting reasoning.
