

Multiple Choice (10 marks)

1. What was GDP per capita in the United States in 1950 when adjusting for inflation and PPP in 2011 prices?
 - (a) About \$3 k
 - (b) About \$8 k
 - (c) About \$15 k
 - (d) About \$30 k
2. What is the median international income as of 2020?
 - (a) \$300
 - (b) \$1,000
 - (c) \$10,000
 - (d) \$30,000
3. As of 2019, about what percentage of the global population does not have access to safe drinking water?
 - (a) 10%
 - (b) 20%
 - (c) 30%
 - (d) 40%
4. At its peak, what was the approximate difference in approval of school desegregation from the South and the rest of the U.S.?
 - (a) 80%
 - (b) 40%
 - (c) -40%
 - (d) -80%
5. After the Atom bomb how many Americans support giving aid to Japan even at the cost of food shortages?
 - (a) 33%
 - (b) 50%
 - (c) 66%
 - (d) 85%

True / False (10 marks)

Answer True or False

6. True or False: During the Wisconsin glaciation, 50-17,000 years ago, falling sea levels allowed people to move across the land bridge of Beringia that joined Siberia to north west North America (Alaska). Alaska was a glacial refugia because it had low snowfall, allowing a small population to exist. The a different answer covered most of North America, blocking nomadic inhabitants and confining them to Alaska (East Beringia) for thousands of years.
7. True or False: According to the official Twenty-Four Histories, the History of Ming compiled in 1739 by the subsequent Qing dynasty (1644-1912), the Ming dynasty established the "É-Lì-Sī Army-Civilian Marshal Office" (Chinese:) in western Tibet and installed the "Ü-Tsang Itinerant High Commandery" and "Amdo-Kham Itinerant High Commandery" to administer Kham.
8. True or False: The state has areas like Dharamsala that receive very heavy rainfall, as well as those like Lahaul and Spiti that are cold and almost rainless. Broadly, Himachal experiences three seasons: summer, winter, and rainy season.
9. True or False: The Taihō Code lapsed, its institutions relegated to ceremonial functions. Family administrations now became public institutions. As the most powerful family, the a different answer governed Japan and determined the general affairs of state, such as succession to the throne.
10. True or False: Although 75% of the Jewish population in France survived the Holocaust during World War II, half the city's Jewish population perished in Nazi concentration camps, while some others fled abroad. A large migration of North Africa Sephardic Jews settled Paris in the a different answer, and represent most of the Paris Jewish community today.

Long Form Response (20 marks)

Answer each question with a clear and complete explanation.

11. Read the following passage and answer the question: Three community college districts exist with campuses in and around Houston. The Houston Community College System serves most of Houston. The northwestern through northeastern parts of the city are served by various campuses of the Lone Star College System, while the southeastern portion of Houston is served by San Jacinto College, and a northeastern portion is served by Lee College. The Houston Community College and Lone Star College systems are within the 10 largest institutions of higher learning in the United States. Question: How are the Houston Community College and Lone Star College systems ranked among educational facilities?

12. Read the following passage and answer the question: An alternative concept is that they formed closer to the Sun, where the matter density was higher, and then subsequently migrated to their current orbits after the removal of the gaseous protoplanetary disc. This hypothesis of migration after formation is favoured, due to its ability to better explain the occupancy of the populations of small objects observed in the trans-Neptunian region. The current most widely accepted explanation of the details of this hypothesis is known as the Nice model, which explores the effect of a migrating Neptune and the other giant planets on the structure of the Kuiper belt. Question: If Neptune formed closer to the sun, what is the matter density?
