 - (c) paralysis of the muscles of the throat.
 - (d) paralysis of the muscles of the jaw.
 - (e) loss of somaesthetic sensation over the posterior two thirds of the tongue.
3. Which of the following conditions is a peroxisomal disorder?
 - (a) Zellweger syndrome
 - (b) Maple syrup urine disease
 - (c) Hemophilia
 - (d) Medium chain acyl-CoA dehydrogenase deficiency
 - (e) Huntington's disease
4. The dorsal roots of all spinal nerves contain
 - (a) motor and autonomic neuronal processes.
 - (b) both autonomic and motor neuronal processes.
 - (c) both sensory and motor neuronal processes.
 - (d) sensory and autonomic neuronal processes.
 - (e) motor neuronal processes.
5. The phrenic nerves innervate the
 - (a) diaphragm.
 - (b) diaphragm and pericardium.
 - (c) diaphragm, parietal pleura, pericardium and abdominal muscles.
 - (d) diaphragm, parietal pleura, pericardium and lungs.
 - (e) diaphragm, parietal pleura and pericardium.

True / False (10 marks)

Answer True or False

6. True or False: Projective tests typically require fewer resources and less training to administer compared to objective tests of personality.
7. True or False: Removal of adhesive strips should not be undertaken until at least ten days after application to ensure proper healing.
8. True or False: The Supreme Court has ruled that older workers no longer need to prove intention to win a job discrimination lawsuit.
9. True or False: Recent events can often be verified, while older events frequently lack corroborative evidence.
10. True or False: Engaging in social activities and interaction with peers can enhance memory and reduce anxiety in older adults.

Long Form Response (20 marks)

Answer each question with a clear and complete explanation.

11. Discuss the significance of autozygosity mapping in identifying disorders with autosomal recessive inheritance patterns, including its methodology and implications for genetic counseling.
12. Discuss the implications and limitations of population carrier screening for genetic disorders, specifically analyzing why thalassemia may not be suitable for such screening.
