True / False (10 marks)

Answer True or False

6. True or False: The bones found in Spain show little evidence of diversity, suggesting each individual represents a different hominid species.
7. True or False: The Laurentide ice mass was centered in the Rocky Mountains and covered much of North America during the Pleistocene.
8. True or False: Since the late 1800 s, mean global sea level has remained constant and may only rise if glaciers melt.
9. True or False: A landfill where refuse from an entire community has accumulated indicates a primary context.
10. True or False: The Inca developed one of the earliest kingdoms in South America, reaching its height around AD 200.

Long Form Response (20 marks)

Answer each question with a clear and complete explanation.

11. Discuss the evidence that supports the idea that Neandertals were hunters, focusing on the findings related to animal bones and the implications of these discoveries.
12. Discuss the factors that led the Mogollon people to leave their mountain homeland, focusing particularly on the impact of drought on their society and lifestyle.
