

Multiple Choice (10 marks)

1. Dan read a list of 30 vocabulary words only once. If he is typical and shows the serial position effect, we would expect that the words he remembers two days later are
 - (a) at the end of the list
 - (b) words that were repeated in the list
 - (c) the longest words in the list
 - (d) words related to a specific topic
 - (e) the last ten words he read
2. Which part of the brain was thought to play the most important role in the Cannon-Bard theory of emotion?
 - (a) basal ganglia
 - (b) hippocampus
 - (c) prefrontal cortex
 - (d) hypothalamus
 - (e) amygdala
3. Abraham Maslow proposed the idea that some motives are more imperative to survival than others. Which of the following approaches expresses this?
 - (a) Homeostatic regulation
 - (b) Hierarchy of needs
 - (c) Self-determination theory
 - (d) Intrinsic motivation
 - (e) Maslow's pyramid of desire
4. According to the Gestalt organizing principles of perception, when you look at, "i n car n a t e," you tend to notice the word car rather than in, nate, at, or ate, because of
 - (a) symmetry
 - (b) complexity
 - (c) novelty
 - (d) similarity
 - (e) proximity
5. If, after a conditioned response has been acquired, the procedure is changed so that the CS is repeatedly presented without being followed by the UCS, what is the result ?

- (a) Intermittent reinforcement of the conditioned response
- (b) Habituation to the conditioned stimulus
- (c) Transformation of conditioned respondent behavior
- (d) Emergence of a new unconditioned response
- (e) No change in conditioned respondent behavior

True / False (10 marks)

Answer True or False

- 6. True or False: Confidentiality in group counseling is legally mandated by federal law for all participants involved.
- 7. True or False: The Draw-a-Person Test (DAP) is a skill assessment for fine motor coordination through drawing.
- 8. True or False: Generalization occurs when an individual applies a familiar label to new stimuli, as Antonia did by calling the rabbit a cat.
- 9. True or False: A person is more likely to receive help in an emergency when there are several bystanders present, regardless of their engagement.
- 10. True or False: After staring at a yellow star, Curtis is likely to see a blue afterimage on a blank surface due to visual fatigue.

Long Form Response (20 marks)

Answer each question with a clear and complete explanation.

- 11. Discuss how the attitudes of parents during breastfeeding can influence the psychological development of the child. What implications does this have for parent-child bonding?
- 12. Discuss how the inclusion of free gifts, such as address labels, in donation requests exemplifies compliance strategies in social psychology, and analyze its effectiveness in increasing contributions.
