True / False (10 marks)

Answer True or False

6. True or False: The experimental method in science involves isolating and measuring the effect of one variable upon another.
7. True or False: Religious organizations such as the Church of Norway and Islam are characterized by their monotheistic beliefs.
8. True or False: Patterson's study showed that African-Caribbean migrants predominantly occupied the best and most affordable housing in Brixton.
9. True or False: In stage 3 of the health transition, chronic, degenerative diseases such as cancer and heart disease are the primary causes of illness and death.
10. True or False: A moral panic occurs when the media exaggerate reports of deviant groups, leading to widespread social anxiety and hostility.

Long Form Response (20 marks)

Answer each question with a clear and complete explanation.

11. Discuss how the shape of a population pyramid reflects demographic trends, particularly in populations with sustained higher birth rates than death rates over generations.
12. Discuss the social and economic policies of Thatcher's government, focusing on their approach to financial benefits for vulnerable populations. What were the implications of these policies?
