

Multiple Choice (10 marks)

1. Bernstein thought that using 'restricted codes' of language disadvantaged pupils at school because:
 - (a) this pattern of speech made them the target of bullying
 - (b) they referred to explicit, context independent meanings
 - (c) they prevented children from communicating outside of their peer groups
 - (d) they involved short, simple sentences with a small vocabulary
2. Mulholland (1998) argued that privatization changed the relationship between companies and managers in that:
 - (a) flexibility was reduced by the introduction of detailed daily worksheets
 - (b) the state had greater control than managers over production processes
 - (c) ownership was transferred from small shareholders to senior managers
 - (d) employment depended on performance rather than trust and commitment
3. How is terrorism different from the types of crime described by the Chicago School?
 - (a) it is committed on a larger, often global, scale, and is well organized
 - (b) it is associated with political conflict between states and their citizens
 - (c) it can have far-reaching effects upon international relations
 - (d) all of the above
4. The middle classes that developed over the nineteenth century were:
 - (a) an urban set, involved in civic bodies and voluntary associations
 - (b) too diverse to have a strong sense of class consciousness
 - (c) often involved in 'white collar' work
 - (d) all of the above
5. The capitalist class of the mid-twentieth century were said to join the upper class because they:
 - (a) participated in the same leisure pursuits and events of the 'social calendar'
 - (b) emulated the lifestyle and cultural values of the traditional aristocracy
 - (c) owned companies and financial assets that generated wealth through corporations
 - (d) had direct, personal ownerships of land and businesses as physical assets

True / False (10 marks)

Answer True or False

6. True or False: In stage 3 of the health transition, acute infectious diseases such as typhus and cholera remain the leading causes of illness and death.
7. True or False: Women's criminal behavior tends to reflect traditional gender roles, as suggested by Smart's work on gender and crime.
8. True or False: The social democratic model prioritizes individualistic self-reliance and encourages deregulation of wages and prices.
9. True or False: A growing fear of HIV and AIDS, influenced by the New Right, did not emerge until after the sexual revolution of the 1960 s.
10. True or False: According to Scott (1990), a document is considered authentic if it is a reliable copy of known authorship.

Long Form Response (20 marks)

Answer each question with a clear and complete explanation.

11. Discuss the implications of globalization on the power dynamics of nation-states, specifically addressing how globalization challenges traditional notions of state authority.
12. Discuss Wallerstein's concept of the 'world system' and analyze how the division of labor across ethnic and cultural groups shapes the dynamics of the capitalist world economy.
