

Multiple Choice (10 marks)

1. With industrial capitalism, leisure emerged as a concept that meant:
 - (a) distinct periods of non-work and relaxation
 - (b) regulated and organized activities to reduce social disorder
 - (c) the growth of civic, municipal culture through public libraries, museums and art galleries
 - (d) all of the above
2. Equilibrium theories of social change emphasize
 - (a) globalization
 - (b) stability and the structure of society
 - (c) secularism and mechanization
 - (d) industrialization
3. In their study of depression, Brown & Harris (1978) found that:
 - (a) women's susceptibility to stress depended on their levels of social support
 - (b) self-reported depression is highest amongst men and the relatively affluent
 - (c) men and women have fairly similar levels of diagnosed depression
 - (d) men are more vulnerable to depression because of conventional gender roles
4. Which of the following is the most important agent of socialization in early childhood?
 - (a) A preschool provider
 - (b) A peer group
 - (c) The mass media
 - (d) The family
5. The media-themes model of media influence claims that:
 - (a) audiences selectively interpret what they want to hear
 - (b) content analysis is the best way to identify the themes covered by the media
 - (c) audiences passively absorb whatever messages they are given
 - (d) social interaction reinforces the ideas and images that audiences select

True / False (10 marks)

Answer True or False

6. True or False: Law and order was primarily privatized in the 1980 s and 1990 s by reducing the number of police officers in public service.
7. True or False: Scientific management primarily focuses on enhancing employee satisfaction rather than task division and measurement.
8. True or False: In contemporary societies, social institutions exist as disorganized social relations that lack relevance to modern sociological analysis.
9. True or False: In the 1980 s, rates of income tax increased uniformly across all occupational groups, which helped reduce income inequality.
10. True or False: Becker claimed that cannabis use was uniformly increasing among all youth demographics in the 1970 s.

Long Form Response (20 marks)

Answer each question with a clear and complete explanation.

11. Discuss Blauner's (1964) analysis of alienation in the workplace, focusing on the car manufacturing industry. What factors contribute to this alienation, and how might it impact employees?
12. Discuss the New Right's perspective on family values and analyze why they might view certain trends, such as increased cohabitation before marriage, as evidence of decline.
